PROFILE

I am a Frontend Developer and a recent Cybersecurity graduate with 1.5+ years of experience in building responsive and user-friendly web applications. Skilled in React, JavaScript, and secure coding practices, I develop efficient solutions with a focus on both functionality and security. I have hands-on experience in database management, data analysis, and cybersecurity fundamentals, with a passion for creating seamless user experiences.

SKILLS

Databases

MySQL, MongoDB

Programming Languages

C++, JavaScript, Python Node.js, Linux Commands

Frameworks

React, Bootstrap, Next, Express

Tools

Git, GitHub, KNIME, Firebase, Virtual Machines

Cybersecurity Tools

Nessus, Nmap, Pfsense, Vulnerability Scanning

PROFESSIONAL EXPERIENCE

Freelancer

June 2023 – Present

Karachi, Pakistan

- Built responsive web applications using React, Bootstrap, and CSS for multiple clients.
- Designed and optimized MongoDB and MySQL databases for improved performance.
- Created data visualizations using Python, KNIME, and Power BI for business insights.
- Implemented cybersecurity practices including vulnerability scanning with Nessus and Nmap.

Web Developer Intern | Neuro Computation Lab (NCL - NED)

September 2023 – December 2023

Karachi, Pakistan

- Developed STEM lab dashboard using React for real-time data visualization.
- Integrated MySQL to manage frequency data from hardware devices.
- Created interactive graphs for sensor data analysis and insights.
- Optimized frontend and backend integration for seamless user experience.

EDUCATION

Bachelor of Science in Cybersecurity | Dawood University of Engineering & Technology (*2021 – 2025***)**

Karachi, Pakistan

CGPA: 3.0

PROJECTS

AI-POWERED STEGANOGRAPHIC COMMUNICATION SYSTEM

Final Year Project - Team Collaboration

- Real-time web-based chat platform with user authentication and secure messaging. Implemented AES-128 encryption and RSA for secure key transmission.

STEM LAB DASHBOARD

Internship Project

- Interactive React dashboard with MySQL integration for real-time visualization of laboratory sensor data from multiple hardware devices.

RESPONSIVE WEB APPLICATIONS

Freelance Projects

- Built multiple responsive web applications using React, JavaScript, and modern CSS frameworks with focus on user experience optimization. (All projects are on GitHub)

CERTIFICATES

Frontend Development (Meta)

Linux Fundamentals
